

LEON INFANT B

Chennai, India | +91 9176746332 | Leonbas79@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack Development student with hands-on experience building web apps using React, Node.js, and Python. Oracle Certified Java SE 17 Developer with exposure to AI/LLM integration, REST APIs, and the Python Full stack. Hackathon prize winner seeking a Full Stack Developer or Software Engineer internship/entry-level role.

TECHNICAL SKILLS

Languages: JavaScript, Python, SQL, Java, HTML, CSS

Frameworks & Libraries: React, Node.js, Bootstrap, Tailwind CSS

Databases: MySQL, MongoDB

Cloud & Tools: AWS Fundamentals, REST APIs, Git, AI/LLM Integration

Core Strengths: Problem Solving, Team Collaboration, Adaptability, Communication, Time Management

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern — RD Info Technology | Jan 2026 – Feb 2026

- Completed a 4-week virtual internship building real-world full stack web applications.
- Contributed actively to assigned projects, demonstrating fast learning and strong technical execution.

PROJECTS

AI Creator Avatar & End-to-End Content Workflow Platform | Apr 2026

github.com/FSFiles/Avatar

- Built an AI-driven avatar platform automating content creation, including script generation, voice synthesis, and video output.
- Integrated LLMs and multimedia tools into a seamless workflow, improving content generation efficiency.

Tech Stack: React, Node.js, Python, REST APIs, AI/LLM Tools

Fodes — AI Food Analysis System

github.com/FSFiles/Fodes | fodes1.vercel.app

- Developed a web-based AI platform for food analysis, nutrition tracking, and personalized dietary insights.
- Enabled users to analyze food information and receive AI-generated recommendations through an intuitive dashboard for monitoring nutritional data.

Tech Stack: Java, React, Node.js, Express.js, MySQL, AI APIs

CERTIFICATIONS

- Full Stack Web Development Training (Python Full Stack) — SLA, Chennai (Feb 2026 – Present)
- Oracle Certified Professional: Java SE 17 Developer — Oracle (Feb 2026)
- Introduction to Generative AI — AWS Educate (Feb 2026)
- Introduction to Cloud 101 — AWS Educate (Feb 2026)
- SQL to MongoDB — Training Badge (Apr 2025)
- Python Essentials — Cisco (Apr 2025)
- Design & Implementation of Human-Computer Interfaces — NPTEL (Jul 2025 – Oct 2025)

ACHIEVEMENTS & ACTIVITIES

2nd Prize — Technical Hackathon “Curb AI”, IGNITE, St. Joseph’s College, Chennai | Mar 2026

- Developed an AI-based child safety system to restrict access to inappropriate websites.
- Implemented a real-time parent notification system for monitoring and enhancing online safety.

Participant — Adobe India Hackathon | Aug 2025

- Cleared Round 1, comprising an MCQ-based assessment and coding challenges.

EDUCATION

SRM Easwari Engineering College, Chennai | Expected Mar 2028

Bachelor of Engineering (B.E.) — CGPA: 7.95/10 (through 4th Semester)

Higher Secondary (12th): Velammal Bodhi Campus, Chennai — 64 percent (2022 to 2024)

Secondary (10th): Swamy’s School, Chennai — 68 percent (2021 to 2022)
